

# HOW TO MEASURE YOUR TORSO LENGTH TO SIZE THE KUIU CARBON FIBER FRAME AND DAY PACKS

**A** Find **C7 VERTEBRA** on the back of your neck

Touch your chin to your chest and feel for the large protruding bone at the base of the back of your neck.

**TORSO LENGTH**

Measure from the **ILIAC CREST** to the **C7 VERTEBRA** to determine the torso length

**B** Find **ILIAC CREST** located on top of hip bones

Length from **A** to **B** = Torso Length

Frame Size	Torso Length (in/cm)
REGULAR	< 17in / 43.2cm
TALL	17 in - 19in / 43.2 cm - 48.3 cm
X TALL	> 19in / 48.3 cm
